Objective

Web application development is my passion. I believe that logical sense is more important rather than technical knowledge and I always try to develop any application on the perspective of customer so that I can build a Product better and user friendly. Challenging works always attract me. **That's** why I am seeking a challenging carrier where I can show my potentiality.

Professional Summary

Having 1.5 + Years of total Job experience experience in Web Development with expertise in **C#, JavaScript ,JQuery,Bootstrap,SQL,Asp.net Mvc** ,familiar with **Xamarin Forms,Angular Js** and experience working for a website & Product, can be a strong driving force for improving the performance and scalability of projects. .

- Proficiency with JavaScript and HTML5.
